Lesson Plan (Year 2022-2023) M.A. Sem III (Geography) Paper – XI

"Population Geography"

S.No.	Month	Unit	No. of Periods Needed	Proposed Syllabus	Торіс
1	July	Ι	20		 Definition and Scope of Pop. Geo. Study of Population in Geography. Definition of Population Geography Relation with other subjects of S.S. Approaches of Pop. Geography Historical Development of Population Geography Sources of population Data Census and its history
2	August	Π	12		 Distribution of Population
3	September	П	12		 Growth Of Population → Measure of Decennial rate and Measure of annual rate of Population growth. Prehistoric and modern trends of Population growth. Regional aspects of Population growth in India. Demographic Transition in India.
4	October	III	8		 Population Composition Population composition in terms of age and sex, rural, urban residence, educational status and occupational structure. Fertility and Mortality of population:

				 Significance and factor. Indices and rates. Human Development Index and its Components
5	November	IV	8	 Population Composition Causes, characteristics and types. Methods of estimating value of internal migration. Important international migrations of the world. internal migration in India Population and Resources: Population-Resource regions Population Regions: Concept and methods, population regions of India, population policies of India.

Lesson Plan (Year 2022-2023) M.A. Sem III (Geography) Paper – XII

"SETTLEMENT GEOGRAPHY"

S.No.	Month	Unit	No. of Periods Needed	Teaching method	Торіс
1	July	Ι	12		 Meaning, Objectives and Scope of Settlement Geography Evolution, Distribution, Types and Patterns of Rural Settlements Rural House Types Rural Service Centers.
2	August	Ι	16		• Definition, objective and scope of urban geography. General Name of city structure.

				 General Name of city structure
3	September	II	12	 Evolution and growth of urban settlements The Geographical setting of Urban Centers Site, Situation and Location. Rank-size relationship; Cities as Central Places, Central Place Theory, Growth Pole Theory. City-Country Relationship : Umland, Rural- Urban Fringe.
4	October	III	8	 Internal structure morphology and land use. theory of Urban structure the Concentric zone Theory, The Sector Theory, the Multiple Nuclei Theory. Commercial Structure of Cities; The Central Business District (CBD). Centrifugal and Centripetal forces in Geography, Economic Base of Towns; Basic, Non-basic concept.
5	November	V	12	 Urban f\Functions; Functional Classification of Towns: Webb, Harris, and Nelson Contemporary Urban Planning; Types and elements, Urban problems Blight and Renuwal, Land use Planning, Urban and Metropolitan Planning in India.

Lesson Plan M.A. Sem III (Geography) Paper-XIII (A)

" REMOTE SENSING TECHNIQUES"

S.No.	Month	Unit	No. of Periods Needed	Teaching method	Торіс
1	August	Ι	8	Lecture Black Board Discussion ICT	 Historical development of remote sensing as a technology – Relevance of remote sensing in Geography – Concepts and basics: Energy source, energy and radiation principles, energy interactions in the

					 atmosphere and earth surface features, remote sensing systems: platform sensors and radiation records. Microwave sensing interpretation of SLAR imageries, thermal imageries.
2	September	Π	8	Lecture Black Board Discussion ICT	 Remote Sensing Satellite: platforms LANDSAT, SPOT, NOAA, RADARSAT, IRS, INSAT principles and geometry of scanners and CCD arrays, orbital characteristics and data products - MSS, TM, LISS I & II, SPOTPLA & MLA, SLAR. Recent trends in Satellite & Sensor System (World & India)
3	October	III	8	Lecture Black Board Discussion ICT	 Image Processing: Types of imagery, techniques of visual interpretation, ground verification transfer of interpreted thematic information to base maps-digital processing: rectification and restoration, image enhancement - contrast manipulation, Classification: Supervised and Unsupervised, post- classification analysis and accuracy assessment. Selection of appropriate data for different applications
4	November	IV	8	Lecture Black Board Discussion ICT	 Applications : Air photo and image interpretations : mapping land use and land cover, land evaluation, urban land use, landform and its processes weather studies and studies of water resources : integration of Remote Sensing and GIS. Remote sensing and hazard management, remote sensing and environmental management.

Lesson Plan M.A. Sem III (Geography) Paper XIV

"RESEARCH METHODOLOGY"

S.No.	Month	Unit	No. of Periods Needed	Teaching method	Торіс
1	August	Ι	8	Lecture Black Board Discussion ICT	 Research Methodology-An Overview Procedure of scientific Research, Defining Research Problem Formulating Hypothesis Research Design.
2	September	П	8	Lecture Black Board Discussion ICT	 Methods of Data Collection: Observation, Questionnaire Schedule and Interview Sampling: Sampling Methods, Size of Sample
3	October	III	8	Lecture Black Board Discussion ICT	 Processing and Analysis of Data: Processing- Editing, Coding, Classification and Tabulation Analysis ; Measurement of Central Tendency Dispersion, Correlation
4	November	IV	8		• Preparation of Research Reports: Steps, Layout and Types of Reports
