

B.A. 1st year
Year 2023 (session 2023-2024)

Course Code:BAHSC-1T

Course Title: Home Science Paper 1 (Anatomy Physiology and Hygiene)

Course Type:Theory

Course Learning At the end of this course the students will be enable to:

Outcome (CLO):

- To understand Basic of Human Body Structure.
- To understand Basic of Human Body Functioning.
- To understand Basic of Primary Health Care.
- To understand Basic Knowledge of First Aid.
- To understand Basic Knowledge of Home Nursing.

Course Code: BAHSC-2 T

Course Title: Home Science Paper 2 (Extension Education)

Course Type: Theory

Course Learning At the end of this course the student will be enable to:

Outcome (CLO):

- To Understand Basic Knowledge of Home Science Extension Education
- To understand Basic Knowledge of Community Development and Role of Home Science.
- To understand Basic Knowledge of Teaching Method & Aid.
- To Understand Basic Knowledge of Attitude toward home science
- To understand Basic Knowledge of Curriculum Planning in Home Science.

DEPARTMENT OF HOME SCIENCE
Topic summarization under different themes

Year	Paper	Topic	Theme
Part I	Paper 1	Environmental hygiene	Environmental Ethics
		Water and its purification	
	Paper 2	Air and its purification	Global health systems
		WHO, ICDS, ICAR CARE, ICMR, Adult education	
Part I	Paper 2	First Aid	Human values
		Parda pratha, rural indebtedness	Gender issues
		Child marriage, dowry	
Part II	Paper 2	Unemployment	Professional ethics
		Account keeping	
		Spending plan, Record of expenditure	
Part III	Paper 2	Family budget	Human values
		Development of intelligence	
		Theories of play	
Part III	Paper 2	Laws of habit formation	Human values
Part III	Paper 2	Child delinquency	Human values

Programme outcome

Home Science is an interdisciplinary field of study. As a discipline Home Science integrates the components of science, social science and technology to facilitate the quality of life. The major fields studied under Home Science include Food and Nutrition, Human development, Clothing and Textile, Family resource management and communication. The curriculum has an integrated approach of combining theory, practical and fieldwork. The competency based courses of Home Science would lead to social and economic empowerment. and integration of skill in the learning processes with transfer of knowledge from laboratory to classroom and from classroom to field.

PROGRAMME OUTCOME

- To understand and appreciate role of home science in the development and well being of individuals , families and communities.
- To learn the sciences and technologies which enhance the quality of life of the people.
- To acquire professional and entrepreneurial skills for economic empowerment of student in particular, and community in general.
- To develop professional skills in the fields of food and nutrition, clothing and textile , family resource management , human development and extension and communication.
- To take science from the laboratory to the people.

Women empowerment
Skill development and enhancement
Capacity building
Entrepreneurial development
Student centric job oriented courses
Anatomy physiology and Hygiene

Course objective

- To make the students understand the anatomy and functions of important organs of human body.
- To create awareness about personal and community hygiene.
- To develop skills of first aid and home nursing.

Subject outcomes

- Students will be able to understand importance and basic functioning of body organs and management of patients at home.
- Enables students to perform primary aid of some common accidents.
- Understands importance of personal and social hygiene.

Home Science - Extension and Education

Food Science and Nutrition

Course objective

- To give students an understanding of the concepts of foods, their function and classification, balanced diet, basic food groups.
- To acquaint students with the physiology of digestion and basal metabolism and need for energy.
- To provide students the understanding of nutrients, their sources, functions requirements and affects of deficiencies.

Learning outcomes

- Understand food, nutrients and their functions.
- Understand about balanced diet basal metabolism and energy requirement.
- Understand functions sources and requirements of different nutrients and associated deficiency diseases.
- Understand about food poisoning and food adulteration.

Human development

Course objectives

Students will be able to understand various developmental tasks of different age groups.

Understands concepts of human development and give students knowledge about rights and needs of different age groups.

Concepts of old age and special needs of old age.

Learning outcome.

Concepts of various developmental task of different age group.

Care and need of children, adolescent's adult and old age.
